

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

CATALOGUE
OF THE
NEW YORK STATE LIBRARY,
1872.

SUBJECT-INDEX

OF THE
GENERAL LIBRARY.

ALBANY:
VAN BENTHUYSEN PRINTING HOUSE.
1872.

P R E F A C E .

THE last complete Catalogue of the General Library was published in 1856. A Supplement containing the additions of five years was published in 1861, which was larger than the previous volume, on account of the addition by exchange and donation of large numbers of pamphlets. A Catalogue of all the printed contents of the Library to the present time, on the same plan of full titles, including those of the collection of two thousand volumes of pamphlets, would fill more than thirty-five hundred pages.

Although the Trustees, under the existing Statute, would be authorized to publish such a Catalogue, they have deemed it best to issue instead a condensed Subject-Index Catalogue. Some of the largest libraries have abandoned all purpose of publishing full Catalogues, both on account of the expense, and because that in a short time the annual additions to a growing Library will have impaired the value of the work as one for reference. While this course was suggested by its economy, it commended itself also for the reason, that the larger number of readers in a reference library avail themselves of the index of subjects rather than of the alphabetical catalogue of authors. The number who wish to know what may be found in a particular department or on a topic in which they are interested, is much larger than the number of those who desire to see a list of the works of a particular author, or the exact title of a book.

It being decided to publish a condensed Subject-index instead of a full Catalogue, it became necessary that the titles should be short and abbreviated, otherwise a catalogue by subjects would make as large a work as a catalogue by authors. In the abridgment of the titles it has been intended to retain the words of the author, if necessary for identification.

So far as executed in accordance with the plan, the Index gives with regard to each book at least four facts: The *subject*, the *name of the author*, when not anonymous, a *portion of the title*, and the *date of publication*, or the period embraced in the work, or both. Under some one of the Topics, each volume is entered once, and some of them are entered several times under different topics. Of the fifty thousand pamphlets in the Library, all are entered by a reference to the number of the volume in which each is bound with others on the same subject, while many of the more important are entered by their specific titles under the subject of which they treat.

If the experiment of issuing a Catalogue of this nature as a substitute for the usual Catalogue of authors should prove successful, by increasing the utility of the Library at a moderate expense, it would be an encouragement to publish after a few years a similar one, improved in its system and execution. Many of the present titles as originally formed were designed as references to the printed Catalogue of authors, and not to be sufficient in themselves. The size of the volumes and Christian names of authors might be added; the dates also might be more uniformly given; and especially the contents of collections, as of learned societies, and of authors writing on a variety of topics, might be referred to more frequently.

The number of volumes in the Library at the date of the issue of this volume, is 86,800, of which 23,400 are in the Law Library, which contains also all State, Legislative and Parliamentary documents.

THE LAWS AND REGULATIONS

RELATIVE TO THE

NEW YORK STATE LIBRARY.

I. EXTRACTS FROM THE LAWS OF THE STATE, RELATIVE TO THE LIBRARY.

SECTION 1.* The Regents of the University of the State of New York are hereby constituted, and shall continue, the Trustees of the State Library.

Laws of 1844: Chap. 255, sec. 1.

§ 2. The trustees hereby appointed shall have power from time to time to appoint a librarian to superintend and take care of said library, and to prescribe such rules and regulations for the government of the library as they shall think proper, and to remove the librarian at any time when they shall deem it expedient; but for the purpose of removing or appointing a librarian, twelve of the said trustees shall be required to form a quorum.

Same chapter, sec. 3.

§ 3. The assistant librarian and messenger shall be appointed by the trustees of the library.

Laws of 1848: Chap. 262, sec. 2.

In the Laws of 1862, chap. 435, it was enacted that the Librarians be henceforth designated as the Librarian of the Law Library, and the Librarian of the General Library, and the Messenger as Janitor. For Second Assistant, see Laws of 1855, chap. 538, sec. 1; and chap. 539, sec. 1; and 1862, chap. 435.

§ 4. The State Library shall be kept open every day in the year, Sundays excepted, during such hours in each day as the trustees of the said library may direct.

Laws of 1844: Chap. 255, sec. 5.

§ 5. The librarian shall be constant in his personal attendance upon the library during the hours it shall be directed to be kept open, and shall perform such other duties as may be imposed by law or by the rules and regulations which may be prescribed by the said trustees.

Same chapter, sec. 6.

§ 6. The acting trustees will from time to time give directions to the librarian in relation to the proper and safe keeping of the books, maps, charts, and other property belonging to the said library; and may, by way of amercement for every violation or neglect of duty, suspend or deduct from his salary or emolument any part thereof, not exceeding half of it in any one year.

Laws of 1840: Chap. 381, sec. 3.

§ 7. The trustees of the State Library may, from time to time, sell or exchange duplicate or imperfect books belonging to the library, not necessary for the use thereof.

Laws of 1845: Chap. 85, sec. 3.

*The sections are, for convenience, numbered without reference to their original numbers.

§ 8. It shall be the duty of the trustees of the State Library annually to report to the legislature the manner in which the moneys by them received during the year preceding have been expended; together with a true and perfect catalogue of all the books, maps and charts which have been added to the library since the date of the last preceding annual report; and whether any, and, if so, what books, maps and charts have been lost; and, also, at the end of every five years, to report in like manner a full and perfect catalogue of all the books, maps and charts then remaining in the library.

Laws of 1844: Chap. 255, sec. 7.

§ 9. It shall be the duty of the trustees to provide, in their regulations, that any member of the senate or assembly, during the session of the legislature, or during the sitting of the court for the correction of errors*, or of the senate only, shall be permitted, under proper restrictions, forfeitures and penalties, to take to his boarding-house or private room any book belonging to the library, except such books as the trustees shall determine are necessary always to be kept in the library as books of reference; but no member of the legislature shall be permitted to take or detain from the library more than two volumes at any one time.

R. S. Part 1, chapter 8, title 8, sec. 8.

§ 10. Before the President of the senate, or the Speaker of the assembly, shall grant to any member a certificate of the time of his attendance, he shall be satisfied that such member has returned all books taken out of the library by him, and has settled all accounts for fines for injuring such books or otherwise.

Same title, sec. 7.

§ 11. It shall also be the duty of the trustees to provide in their regulations that no book, map, or other publication shall be at any time taken out of the library by any other person than a member of the legislature, for any purpose whatever.

Same title, sec. 8.

§ 12. The heads of the several departments, and the trustees of the State Library, shall have the same right to take books from the library, as is now enjoyed by members of the legislature.

Laws of 1845: Chap. 85, sec. 1.

§ 13. The judges of the court of appeals, and the justices of the supreme court, shall be allowed to take books from the library under the same regulations as the members of the legislature.

Laws of 1848: Chap. 262, sec. 3.

Concurrent Resolution of the Senate and Assembly, April 9, 1856.

(Laws of 1856, p. 364.)

Resolved, That the Trustees of the State Library be authorized and required to close the said library for the period of fifteen days in each year, to wit, from the fifth to the twentieth day of August, for the purpose of cleaning and dusting the books of the said library, and for making such internal arrangements as the trustees may think proper.

II. RULES AND REGULATIONS FOR THE GOVERNMENT OF THE LIBRARY, PRESCRIBED BY THE TRUSTEES.

1. The Library shall be open to the public daily as required by law (Sundays and fifteen days from the fifth to the twentieth of August excepted), from the hour of nine in the morning till five in the afternoon; and during the sessions of the Legislature, till six in the afternoon, except on Saturdays, when it will be closed at five. While the Court of Appeals, or any general term of the Supreme Court is in session in the Capitol during the recess of the Legislature, the Law Library will also be open till six o'clock in the afternoon, except on Saturdays as aforesaid.

* This Court was abolished under the State Constitution of 1846.

2. It shall be the duty of the Librarian and the Assistant Librarian, carefully to preserve the books, maps, charts, engravings, manuscripts, medals, furniture, and other property belonging to the Library. They will be severally held accountable for the full value of every article missing from their respective departments, and for every injury except from ordinary use, unless it can be shown that some other person is responsible for such loss or injury; the amount of such loss or injury to be deducted from the salary of such officer, pursuant to section 3 of chapter 381 of the Laws of 1840.

3. Whenever the Library is open, the Librarian and Assistant Librarians shall be in attendance: they shall preserve order, and exclude, if necessary, any disorderly person: they shall prevent smoking, loud talking, and all noise inappropriate to the quietness of a place of study.

4. Any person who wishes to obtain any book for perusal in the General Library, will be furnished at the desk of the Librarian in attendance, with a card, on which he will inscribe from the Catalogue the title of the book desired, and his own name. The book thus received must not be taken from the library hall, but be returned to the Librarian's desk, otherwise the person will remain responsible for the book. The Librarians will exercise a proper discrimination as to the delivery of such books as they may judge liable to be injured. Manuscripts, rare and valuable books, and plates are excluded from this rule: they will be shown only on special application to the Librarian in charge, and under such regulations as the circumstances of each case may in his judgment require.

5. In compliance with the provisions of the statute above set forth, any member of the Senate or Assembly, during the session of the Legislature or of the Senate only, is permitted, under the restrictions, forfeitures and penalties hereinafter mentioned, to take to his boarding-house or private room any book belonging to the Library, except such as are herein determined to be necessary always to be kept in the library as books of reference. The Judges of the court of appeals, the Justices of the Supreme court, the Heads of the several departments, and the Trustees of the Library, have by statute the same right to take books from the Library, and under the same regulations as the members of the Legislature. No book, map, manuscript, or other article belonging to the Library, shall be at any time taken out of the Library by any other person, for any purpose whatever. The restrictions and terms above referred to are contained in the next three rules.

6. No book can be taken from the Library, until its title, and the name of the person taking it, have been registered by the Librarian. A card must also be given for it, in the manner required by the fourth rule.

7. No person can take or detain from the Library more than two volumes at any one time, or for a longer period than two weeks.

8. If, on reasonable notice from the Librarian or either of the Assistant Librarians that the time for which any book or books taken or detained has expired, any person shall omit to return to the Library any such book or books for more than three days after such notice shall have been given; or if any book, map, chart, engraving, medal, or other article belonging to the Library be lost or destroyed, or so far injured as to be equivalent, in the judgment of the Librarian or Assistant Librarian in charge, to a total loss for the purposes of the Library; the person by whom such loss, destruction or injury has been occasioned, or who shall fail to make such return, shall be charged the full value of the book or article so lost, destroyed, injured or not returned; and in case of the loss of a book, or its not being returned, if it belong to a set of two or more volumes, he shall be charged the value of the whole set, or as much as it may cost to perfect it, at the election of the Library Committee. For any injury not amounting to destruction to any book, map, chart, engraving, medal or other article as aforesaid, the person causing the same shall pay a sum sufficient to compensate for such injury. This rule shall be of general application.

9. The Trustees hereby declare, agreeably to the provisions of the Revised Statutes, that the following books are always to be kept in the Library as books of reference, to wit: All the books in the Law Library; and, in the General Library, all dictionaries, encyclopædias, registers, directories, newspapers, maps and engravings, and books which are valuable for their rarity or antiquity.

10. Books of reference referred to in the preceding article, cannot be taken from the Library; except that during the sessions of the Legislature or of the Courts, any member thereof may take to any room in the Capitol any such book, on leaving a card for the same, as required by the fourth rule, after being duly registered. The book must be returned on the same day on which it is taken.

11. No books belonging to the Law Library can be taken to the General Library for perusal; nor are books, maps, engravings, or any other article belonging to the General Library, to be taken to the Law Library for perusal or examination.

12. For the better preservation from injury of the more costly collections of engravings, and the rare works and maps belonging to the Library, neither the Librarian nor the Assistant Librarians shall exhibit them to any person other than those authorized to take books from the Library, except on a written request from a member of the Joint Library Committee of the Senate and Assembly, the Speaker of the Assembly, or one of the Trustees or the Secretary of the Library.

13. Three days before the day fixed for the adjournment of any session of the Legislature, or of the Senate only, the Librarian shall address a note to each member of the Legislature, or of the Senate, as the case may be, having any book belonging to the Library, requesting the return thereof within twenty-four hours.

14. After the expiration of the said twenty-four hours, the Librarian shall immediately make out a list of the members of each house who have omitted to return any books belonging to the Library, specifying the volumes retained by each; and a list of those against whom any charges for any injury to or loss of books exist, stating the amount of them; which list shall be alphabetically arranged according to the names of the respective members, and shall be certified to be correct. To the President of the Senate, the Librarian shall forthwith deliver the list relating to that body; and the list containing the names of the members of the Assembly, he shall forthwith deliver to the Speaker; and upon each list shall be written a copy of the section of the Revised Statutes in regard to the matter above set forth.

15. Twenty days before the opening of any annual session of the Legislature, the Librarian shall report in writing to the Trustees the title of every book, map, chart, print, engraving, or other article missing from the Library since the catalogue of the previous year was made out, or, if no such catalogue has been made, then since the date of the said Librarian's last annual report to the trustees; together with the name or names of the persons who appear, from the entries of the Librarian, to have borrowed or detained the same, to the end that such list may be submitted to the Legislature by the Trustees.

16. All penalties imposed under any of these rules may be remitted by the Library Committee, either wholly, or on such terms as they may deem proper.

EXPLANATORY.

The abbreviations most frequently occurring have the following significations :

P., Pam. Pamphlets.
Pamp'r. Pamphleteer.
Cat. Catalogue.
V., v., vol. Volume.
Imp. Imperfect series.
B. C. Bleeker Collection.
L. Lib. Law Library.

The very frequent abbreviations like "U. S." for United States, "Gr. Br." for Great Britain, "Conv." for Convention, etc., it is believed, will be usually understood from the connection in which they occur.—The figures at the end of titles are either the date of the edition or editions, or indicate the period embraced in the book. Sometimes both are given.—The figures after "P." refer to the number of the volume in the Library Collection of pamphlets, in which the publication may be found.—The arrangement of subjects is alphabetical, as in an encyclopædia or dictionary. Under many subjects cross-references are given to topics with other names, containing titles cognate to the one in which the reader is interested. Cross-references are also frequently made from topics under one name, to the name of the same general meaning adopted by the editor.
